PUPIL ATTITUDE SURVEY 2018 RESULTS

INTRODUCTION

Each year we seek the views of the children at Queensmead Primary Academy about various aspects of their education, attitude to learning and approach to homework.

The outcomes below are the children's own views on the different questions asked. These questions were completed independently so that children could give their honest and true opinion on each topic.

This helps us to better understand the work of our academy, what we do well and the areas we need to improve from the perspective of the pupils.

We use this information, alongside the Parent Questionnaire and internal monitoring and evaluation, to update the academy development plan so that we can do things better for our pupils.
