

# Digestive System Dominoes

**Start**

twinkl.com

In here, your teeth  
chew your food and  
your tongue moves  
it around.

**Mouth**

twinkl.com

Food moves down  
this long tube  
because muscles  
squeeze it down.

**Oesophagus**

twinkl.com

This is a large sack  
which churns your  
food with strong  
acid to break it  
down.

**Stomach**

twinkl.com

Nutrients and  
water are absorbed  
into your body.

**Intestines**
